FEAT. LUCKY SPARXX

Made To Wonder

« Made To Wonder » is my new pop-rock single, featuring Lucky Sparxx, a Chilean artist I regularly collaborate with.

The song was inspired by astronaut Sophie Adenot. Her live message from the International Space Station deeply moved me through its simplicity and emotion. I wanted to capture that same sense of wonder and humanity in this track.

I produced the entire song in my studio, adding a subtle 80s touch, which reflects some of my main musical influences. Lucky Sparxx also performs the guitar solo, bringing an extra intensity to the track.

Dute

We were made to wonder
Made to lift our eyes
Made to leave a little light
In the silence of the sky
